Belarusian Post - together with digital technologies!

Today, there are more than 3,900 postal facilities in Belarus, 71% of which are located in rural areas.
27 licensed postal operators, of which:
 21 — provide mail transfer services,
 6 — provide subscriptions and delivery of print media.

In recent years, a number of IT solutions have been implemented to simplify interaction with mail:
→ Already 6,3 thousand users are registered in the system.
→ More than 25 thousand contracts have been concluded.
→ Over 17 million services were provided in the first nine months of 2025!
→ The network includes over 220 devices across the country.
→ Since July 2024, over 25 thousand parcels and letters have been sent via QR Box.
