ITU Virtual Digital World 2020

ITU Virtual Digital World 2020 will be a three-day online event co-organized by Ministry of Information and Communications (MIC) of Viet Nam and International Telecommunication Union (ITU), the United Nations specialized agency for ICTs (information and communication technologies).

On the theme "Building the digital world. Together.", the event will be a dynamic virtual experience exploring the comprehensive digital transformation in the region and globally, focusing on key issues relating to the development of the digital economy, today and tomorrow.
