# From June 6 to June 10, 2022 the 28th International Forum on Information and Communication Technologies "TIBO-2022" in Minsk

From June 6 to June 10, 2022, the Ministry of Communications and Informatization with the participation of governmental officials, businesses, professional community and academia, international experts hosts the 28th International Forum on Information and Communication Technologies "TIBO-2022" in Minsk.

Over a quarter of a century, TIBO has become a unique platform for the exchange of advanced international expertise, generation of innovative knowledge and discussion of ways to deploy the latest technology trends in various economic sectors, social sphere and public administration.

TIBO is attended by the largest domestic and foreign telecom equipment vendors, hardware and software manufacturers, mobile and fixed-line operators, developers and suppliers of high-tech products, security systems, smart solutions and services for individual and corporate customers.

TIBO participants include representatives of government authorities, international agencies and diplomatic missions, professional and business associations, academia, state-owned and private companies, and the media.

TIBO-2022 is to include a large-scale display of the 28th International Specialized Exhibition "TIBO" and a busy agenda composed of business events where domestic and foreign experts, representatives of governmental agencies and business communities will review recent global trends in ICT development, showcase information technology innovations, as well as their effective applications in different sectors.

The TIBO-2022 agenda includes the official opening of the Digital Future Forum, the 2d Digital Economy Forum (DEF), 5th Belarusian ICT Summit, 4th Eurasian Digital Forum and other events.

The detailed information about the Forum can be found on the official website www.tibo.by.
