World Radio Day

February 13 is World Radio Day proclaimed in 2011 by UNESCO member countries and approved in 2012 by the UN General Assembly.

According to various international reports, radio continues to be one of the most respected and widely used media in the world. Therefore, World Radio Day 2022 is dedicated to the theme "Radio and Trust".

Today in Belarus, 458 broadcasting transmitters of the very high-frequency range provide on-air broadcasting of state and commercial sound programs, including provincial and regional ones.

On the occasion of 2022, UNESCO is calling on radio stations around the world to celebrate for the 11th time this event, as well as over a century of radio existence.
