The collective stand of the Ministry of Communications at the exhibition TIBO-2016

On April 19, the 23rd International Specialized Exhibition TIBO-2016 starts its operation. The collective stand of governing authorities and organizations under the Ministry of Communications and Informatization of the Republic of Belarus will be located on 400 m3 and become the most large-scale exposition of the exhibition.

15 participants will present their achievements under the common concept “e-Government of Belarus” at the central demonstration area. Among the exhibitors are - State Property Committee, State Border Committee, State Customs Committee, Ministry of Architecture and Construction, Ministry of Housing and Communal Services, Ministry of Health, Ministry of Culture, Ministry of Education, Tax and Duties Ministry, Ministry of Natural Resources and Environmental Protection, Ministry of Transport and Communications, Ministry of Justice, National Bank, National Centre for e-services, High-Tech Park.

Structurally, the exposition is divided into 15 sectors each representing the usage of modern information technologies in various spheres (modern classroom, digital medical prescriptions, virtual museum tours, electronic library catalogs, electronic customs declaration, system of fiscal control, border crossings management and etc.).

The introduction of e-government, improving the mechanisms of interaction among people, businesses and government agencies is a priority for the development of information society. During the exhibition information resources, high-tech products and services, characterizing the general level of application of information and communication technologies in public administration sector will be presented.
